29-July-2024	78%	Overall a good report. Just a few minor things and we should be good to go : 1. Can we please have all main headings centre aligned. 2. The table 12.1 has formatting issue for tasks. 3. The timesheet needs to have start and end date inside the table. Overall a good job, please add an appendix with my feedback to cover letter and send me 5 files for final review before we go to next step.
