Feedback for Major Project Report - Mentor Submission

Submission Feedback

Overall Feedback

Feedback on Submission 2:

Score : 78 /100

Hello Bhavik,

The report has improved significantly. It is very detailed, well structured, and much closer to the required standard. Good job! Just a few minor changes are required before it is ready for Supervisor submission:

- In the **cover letter**, there is **no need to include sections for Supervisor Feedback or Committee Feedback at this stage**. These sections can be added later once the respective feedback has been provided.
- In the **Status of Goals Overview** table, please use **"Completed"** instead of check marks and **highlight the corresponding cells in green**. Refer to the sample report for formatting.
- Move **"Production incidents provided valuable learning experiences:"** to page 130 so that the heading/title and its corresponding text begin on the same page. Please ensure this is consistent throughout the report.
- The **Appendix should begin on a new page**.
- Please mention the use of **ChatGPT or any other LLM/AI tools** in both the **References section and the cover letter**.
- Please use appropriate prefixes, such as **Mr. or Ms.**, for all individuals mentioned by name in the **work logs** as well.

Please make these final revisions and **resubmit the updated report along with an updated cover letter that includes this round of feedback**.

Feedback on Submission 1:

Score : 55 /100

Hello Bhavik,

Done

has good content, and I can see that a significant amount of work has been put into it. However, the **structure and formatting are currently untidy** and need considerable improvement. The guidelines discussed during the meetings and the formatting demonstrated in the sample reports need to be followed closely. Please review the points below and revise the report accordingly:

- On the **Cover Page**, the font size used for the course number, A-number, and other details should match the formatting shown in the sample report.
- Please use appropriate prefixes, such as **Mr.** or **Ms.**, for all individuals mentioned by name throughout the report.
- The content and structure of the **Certificate** should follow the sample report exactly.
- Please remove these unnecessary **headers** from the report.

MCDA 5585 / 5586 Major Project Report

[Contents](#)

- In the **Table of Contents**, the font color should be **black**, and only headings and subheadings up to the **second level** should be included.
- The **List of Figures** and **List of Tables** should be numbered starting from **1**, following the format used in the sample reports.
- **Page numbers** should be black or grey. Red should be reserved only for **titles and labels**.
- There is excessive blank space on **page 7**. Please move the next section up to utilize the available space. Review the entire report and correct any other similar instances.
- The **JIRA ticket numbers** do not provide meaningful context in the report, as they refer to items that are not defined or explained for the reader. Please remove them.
- Please move **“Three insights from the elicitation process materially shaped the resulting design:”** to the next page so that the heading and its corresponding text begin on the same page. Please review the entire report for similar instances and correct them consistently.
- Regarding **Section 8.3**, tables should be placed within the same section where they are discussed or referenced. Creating a separate subsection containing only one line that refers to a table located elsewhere makes the report appear unstructured.
- Please avoid creating **separate subsections for only one or two lines of content**. Where appropriate, combine

short subsections with related sections to improve the overall flow and organization.

- The **Implementation** section needs to be **completely revised**. This section should describe **what you personally worked on and implemented during the project**, rather than explaining how the overall product or project is structured. Please use first-person language such as *"I worked on..."*, *"I developed..."*, *"I implemented..."*, *"I configured..."*, and *"I added..."*.
- The **Weekly Implementation** section needs significant expansion. Each week should contain **approximately one full page of detailed content** describing the work completed. A single paragraph for an entire week is not sufficient.
- The **Learning Goals table** should be restructured to include a clear **description of each learning goal**, in addition to the other required information. Please refer to the sample report for the expected format.
- In the **Work Logs**, some of the later weeks contain tasks of approximately seven hours that are summarized in only one or two lines. Please break down any task lasting **more than four hours** into smaller, realistic time blocks and provide a more detailed description of the work completed during each block.

After all these changes :

1. Proof read entire report and pass through grammarly and do a mentor submission.
2. Write a detailed description on all my points about how you addressed all my feedback, create a table while you submit me your report one column - feedback, another column how you addressed it. (In the comments section)
3. Add an appendix section and add all the feedback in a table there (please see samples set for reference)

	  BhavikBhagat_A00494758_MajorReport.docx (1.87 MB) Dear Mentors, Here is my submission, revised based on the feedback provided. Notes: 1. I used LaTeX to generate the PDF report. 2. Grammarly changed some wording on the Cover Page and the Certification page, which I kept per its suggestion. 3. I added a Glossary table in the appendix, which was not included in the sample report. I thought it would be a nice addition. 4. I checked several online references for caption styles and found that table captions are placed above the table, not below. How I Addressed Each Feedback Point <table><tr><th>#</th><th>Feedback</th><th></th></tr><tr><td>1</td><td>Cover Page — font size for course number, A-number, and other details should match the sample report Revised title</td><td></td></tr><tr><td>2</td><td>Mr./Ms. prefixes — use appropriate prefixes for all individuals mentioned by name</td><td>All named individuals</td></tr><tr><td>3</td><td>Certificate — content and structure should follow the sample report exactly</td><td>Certificate</td></tr><tr><td>4</td><td>Remove unnecessary headers from the report</td><td>All orphaned headers</td></tr><tr><td>5</td><td>Table of Contents — font color should be black; only headings up to the second level</td><td>TOC font color</td></tr><tr><td>6</td><td>List of Figures and List of Tables — numbered starting from 1</td><td>Both lists numbered</td></tr><tr><td>7</td><td>Page numbers — should be black or grey, not red</td><td>Page footer</td></tr><tr><td>8</td><td>Excessive blank space on page 7 — move next section up</td><td>Spacing adjusted</td></tr><tr><td>9</td><td>JIRA ticket numbers — do not provide meaningful context; please remove</td><td>All JIRA ticket numbers removed</td></tr><tr><td>10</td><td>"Three insights..." heading — move so heading and text begin on the same page</td><td>Directive adjusted</td></tr><tr><td>11</td><td>Section 8.3 table placement — tables should be within the section where they are discussed</td><td>Requirement met</td></tr><tr><td>12</td><td>Separate subsections for only 1–2 lines — combine short subsections with related sections</td><td>Reviewed and adjusted</td></tr><tr><td>13</td><td>Implementation section — revise to describe personal work in first person</td><td>Chapter 10 revised</td></tr><tr><td>14</td><td>Weekly Implementation — each week should contain approximately one full page of content</td><td>Chapter 11 revised</td></tr></table>	#	Feedback		1	Cover Page — font size for course number, A-number, and other details should match the sample report Revised title		2	Mr./Ms. prefixes — use appropriate prefixes for all individuals mentioned by name	All named individuals	3	Certificate — content and structure should follow the sample report exactly	Certificate	4	Remove unnecessary headers from the report	All orphaned headers	5	Table of Contents — font color should be black; only headings up to the second level	TOC font color	6	List of Figures and List of Tables — numbered starting from 1	Both lists numbered	7	Page numbers — should be black or grey, not red	Page footer	8	Excessive blank space on page 7 — move next section up	Spacing adjusted	9	JIRA ticket numbers — do not provide meaningful context; please remove	All JIRA ticket numbers removed	10	"Three insights..." heading — move so heading and text begin on the same page	Directive adjusted	11	Section 8.3 table placement — tables should be within the section where they are discussed	Requirement met	12	Separate subsections for only 1–2 lines — combine short subsections with related sections	Reviewed and adjusted	13	Implementation section — revise to describe personal work in first person	Chapter 10 revised	14	Weekly Implementation — each week should contain approximately one full page of content	Chapter 11 revised

3	Certificate — content and structure should follow the sample report exactly	Certificate																																												
4	Remove unnecessary headers from the report	All orphaned headers																																												
5	Table of Contents — font color should be black; only headings up to the second level	TOC font color																																												
6	List of Figures and List of Tables — numbered starting from 1	Both lists numbered																																												
7	Page numbers — should be black or grey, not red	Page footer																																												
8	Excessive blank space on page 7 — move next section up	Spacing adjusted																																												
9	JIRA ticket numbers — do not provide meaningful context; please remove	All JIRA ticket numbers removed																																												
10	"Three insights..." heading — move so heading and text begin on the same page	Directive adjusted																																												
11	Section 8.3 table placement — tables should be within the section where they are discussed	Requirement met																																												
12	Separate subsections for only 1–2 lines — combine short subsections with related sections	Reviewed and adjusted																																												
13	Implementation section — revise to describe personal work in first person	Chapter 10 revised																																												
14	Weekly Implementation — each week should contain approximately one full page of content	Chapter 11 revised																																												

#	Feedback
15	Work Logs — tasks >4 hours should be broken into smaller, realistic time blocks
16	Appendix with feedback table

Grammarly & Language Corrections (Post-Submission 1)

The report was reviewed against Grammarly and a peer language review (Christine, Sep 21, 2026). The following corrections were made:

#	Location	Correction
1	Ch1 Acknowledgements	explore new technology stack → explore a new technology stack (missing article)
2	Ch3 Team Composition	The co-op period team comprised → The team during the co-op period
3	Ch4 Tools	CloudWatch Container Insights enabled to surface → enabled for tasks
4	Ch4 Tools	Universal database client → Universal database clients (plural); dropped
5	Ch5 Project	production quality and reliability improvement → production-quality
6	Ch6 Project Goals	Architecture plan bullet — added em dashes around list to clarify plan... is produced
7	Ch7 Learning Goals	dual competency development expected → expected dual competency development
8	Ch9 Methodologies	signal most relevant to the April 17, 2026 → most relevant signal
9	Ch10 Implementation	I added on introduced → that I added uses a (broken verb removed)
10	Ch10 Implementation	Lambda-backed CloudFormation provisioner I deployed → provisioner
11	Ch10 Implementation	at the scale required → at the required scale (word order)
12	Ch10 Implementation	provisioner bootstrap --- acceptable → provisioner bootstrap, which
13	Ch10 Implementation	One lightweight ALB call per library → ALB calls (plural)
14	Ch11 Weekly Breakdown	The first added AutomationHub → In the first, I added AutomationHub
15	Ch11 Weekly Breakdown	80-minute session — added an before for grammatical article
16	Ch11 Weekly Breakdown	commit-dense day → highest-commit day (informal → formal)
17	Ch11 Weekly Breakdown	I merged the release/SRE branch to master → into main (correct git prep)
18	Ch11 Weekly Breakdown	Each morning I reviewed → Each morning, I reviewed (comma after introductory)
19	Ch11 Weekly Breakdown	datasource → data source (two words) — standardized consistently across all chapters
20	Ch11 Weekly Breakdown	re-notification → renotification (American English, no hyphen needed)
21	Ch11 Weekly Breakdown	grew the test suite from 60% → increased test coverage from 60%
22	Ch11 Weekly Breakdown	grew the test suite to 562 tests → increased the test suite to 562
23	Ch11 Weekly Breakdown	timeseries panels → time-series panels (compound adjective hyphen)
24	Ch11 Weekly Breakdown	files were too large for email → too large to send by email (rephrase)
25	Ch11 Weekly Breakdown	140 hours reference removed from Week 14 summary
26	Ch13 Achievements	sub-30-second automated alerting...qualitative step change → automated
27	Ch13 Achievements	April 17, 2026 Meridian incident → April 17, 2026, Meridian incident
28	Ch15 Future Work	2--3 hour window → 2--3-hour window (compound adjective hyphen)
