I. UI Path Library Owner

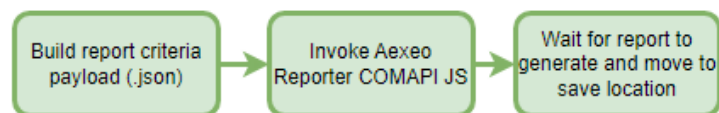

Resource Owner	Role
@Gomez, Nova Katrina (Citco)	IA Developer

II. Objective

This page is created to discuss the flow of calling Aexeo Reporter - COMAPI Library.

III. Library Details

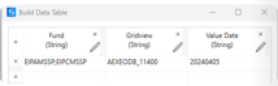

Library Overview

- Build payload in JSON
- Invoke Aexeo Reporter COMAPI
- Wait for report to generate and move to save location
- For any .err, library will retry thrice

Argument

Argument Name	I/O	Data Type	Required	Description	Sample
---------------	-----	-----------	----------	-------------	--------

			Field?		
in_ClientName	Input	String	YES	Name of client in Aexeo.	WT_CAPITAL
in_FileName	Input	String	YES	Filename of the report to be downloaded.	WT_CAPITAL_RPA_11400_yyyyMMdd
in_ReportID	Input	String	YES	Report ID of Aexeo Report.	100011400
in_GridviewType	Input	String	NO	Optional. Gridview Type. Default: Global	client
in_SaveLocation	Input	String	YES	Save location of the report.	\\uipath-file-share.int.coreprod01.citcosvc.com\UiPathShare\nonprod\UiPathProjects\mn\NK Gomez\EIP\SOURCE
in_dt_ReportCriteria	Input	Data Table	YES	Customized report criteria.	
in_APICredentialsName	Input	String	NO	Optional. Credential asset name from Orchestrator. Default: "Aexeo_COMAPI_Credential"	
in_AexeoCOMAPITimeout	Input	Integer	No	Optional. Aexeo Reporter COMAPI	300

				timeout in seconds to wait for the report to be downloaded. Default is 3000 seconds or 50min	
in_AxeoComapiInvokeCode	Input	String	No	Optional. Customize the axeo comapi javascript to be used by the library. Default Javascript version is ReporterAPIv1.0.8.JS	"cscript.exe \\ui-path-file-share.int.coreprod01.citcosvc.com\UiPathProjects\Scripts\AEXEO_COMAPI\ReporterAPIv1.0.8.JS 140SUMMER_OTC_422Report_20240723_RPA"
in_blnWaitReportPerFund	Input	Boolean	No	Optional. If in_AxeoComapiInvokeCode is not empty (meaning library will not be using the default JS [ReporterAPIv1.0.8.JS]), and if the report generation is not per Fund, set as False. Default is True	False

out_ReportCriteriaJSON	Output	String	-	Report Criteria in JSON for audit logging purpose.	
out_blnSuccessfullyDownloaded	Output	Boolean	-	Output if report is successfully downloaded.	

Orchestrator Assets

Asset Name	Asset Type	Description
Aexeo_COMAPI_Credential	Credential	Contains the username and password to be used.
AexeoReporter_COMAPI_Timeout	Integer	Timeout threshold in waiting the report to be generated. Default is 3000sec or 50min
Env_Root_SharedFolder	Text	Root Folder

Pre-requisites

If debugging locally:

1. Install this application so reports can be generated: [AexeoReporterComApi-2021.08.421.00.Installer.exe](#)
2. Install python requests module, COMMAND: pip install requests

Above are already installed in UIPATH Bots by default.

COMAPI JavaScript

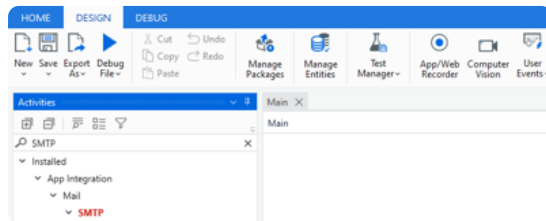

```
"\\uipath-file-share.int.coreprod01.citcosvc.com\UiPathShare\nonprod\UiPathProjects\Scripts\AEXEO_COMAPI\ReporterAPIv1.0.8.JS"
```

Sample JSON

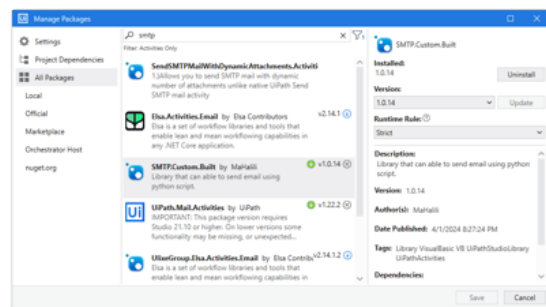

```
{
  "Value date": "20240405",
  "Gridview": "AEXEODB_11400",
  "Fund": "",
  "bG9naW51c2Vy": "username",
  "ZW5jcmlQYXNz": "password",
  "Save Location": "\\uipath-file-
share.int.coredev01.citcosvc.com\\UiPathShare\\UiPathProjects\\mnl\\NKGomez\\OPTIONS_PRO
CESSING\\WT_CAPITAL\\SOURCE\\",
  "ReportID": "100011400",
  "File Name": "WT_CAPITAL_RPA_11400_20240405",
  "Client": "WT_CAPITAL",
  "GVType": "global"
}
```

IV. How to Use

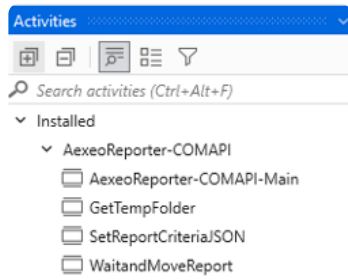

1. Navigate to “Manage Packages” in uipath studio.

2. Find 'AexeoReporter-COMAPI' and install (Make sure to install the most updated version)

3. You can now use Aexeo Reporter COMAPI activity in Activity Panel and Drag to you designer Panel

V. Test Scenarios

 AxeoReporter-COMAPI-TestCases.xlsx

VI. Enhancements

Date	JIRA	ENHANCEMENTS
